

THE MAN IN THE MOON

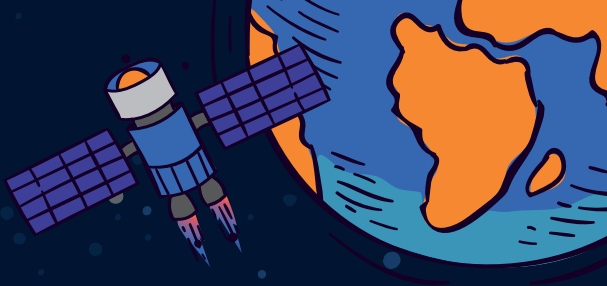

WE'VE LEARNED ABOUT SPACE, AND THAT WE CAN GET THERE,
NOW LET'S TELL YOU ABOUT SOMETHING QUITE SURPRISING THAT
HAPPENED,

52 YEARS AGO MANKIND ACHIEVED A REMARKABLE FEAT -
THE FIRST TIME AN ASTRONAUT ON THE MOON PLANTED HIS FEET!

BY THAT TIME MEN HAD ALREADY WANDERED THROUGH SPACE,
THEY SAW THE SUN, AND THE MOON, AND OUR BLUE PLACE,
THEY STUDIED THE HEAVENS AND LOOKED AT OUR PLANET,
BUT THEY'D NEVER YET SET FOOT ON THE MOON, DAMMIT!

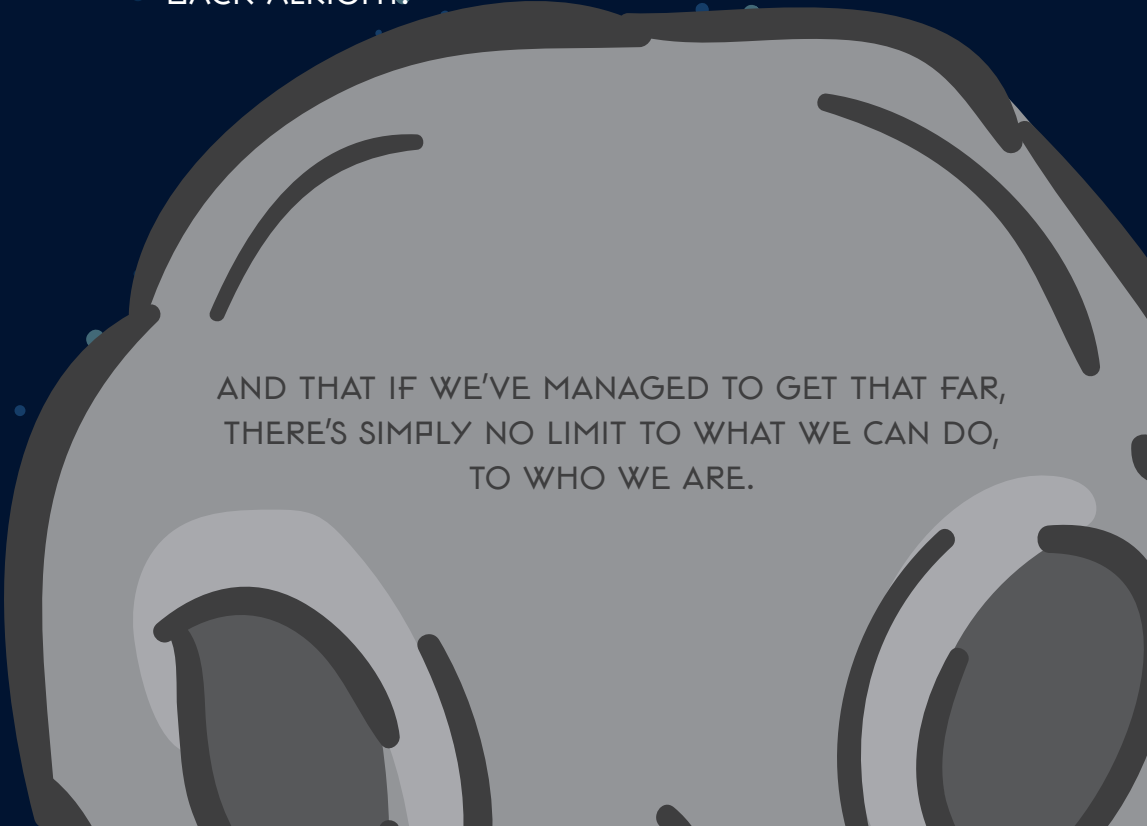

UNTIL THAT MISSION SENT FROM THE U S OF A,
THEY HAD LEARNED AND KNEW WELL THEIR PROGRAM, I'D SAY.
FOLKS FROM ALL OVER THE WORLD STOPPED AND WATCHED,
WE ALL FELT WE ALL WERE TOGETHER ALOFT!

AND THEN THE SPACESHIP LANDED AND THEY LOOKED AROUND
UNBELIEVING,
THE MOON WAS SO GORGEOUS, IT WAS SO OVERWHELMING.
MOUNTAINS AND HILLS, DUST AND CRATERS,
THE EARTH SEEMED SO SMALL, REALLY SMALL POTATERS.

ONE SMALL STEP FOR MAN, A GIANT LEAP FOR MANKIND,
SO SAID THE ASTRONAUT IN A BUOYANT STATE OF MIND.
HE MEANT THAT HE FELT HE WAS WALKING ALONE,
BUT THE WHOLE WORLD WAS WITH HIM IN SPIRIT, IN THE
ZONE.

SO WHEN YOU LOOK OUT YOUR BEDROOM WINDOW
TONIGHT,
REMEMBER THAT MAN'S BEEN TO THE MOON AND CAME
BACK ALRIGHT.

AND THAT IF WE'VE MANAGED TO GET THAT FAR,
THERE'S SIMPLY NO LIMIT TO WHAT WE CAN DO,
TO WHO WE ARE.
