

# LET'S START WITH SPACE

WE'VE TALKED ABOUT THE SOLAR SYSTEM, WE'VE TALKED ABOUT THE STARS,  
NOW LET'S TALK ABOUT HOW WE GET TO OUTER SPACE, SO FAR  
OF COURSE YOU CAN'T DRIVE YOUR CAR OUT TO SPACE  
OR HITCH A RIDE WITH THE SUN WHEN IT'S SETTING SOMEPLACE  
YOU CAN'T GO UP THERE IN AN ELEVATOR  
TO GET THERE, YOU'LL HAVE TO TAKE A SPACECRAFT, SOONER OF LATER!

THE SPACECRAFT LAUNCHES WITH ITS BACK TOWARD THE SKY

AND IT SOARS AND CLIMBS WAY PAST WHERE WE CAN SEE WITH OUR EYE  
IT LEAVES MOTHER EARTH ON A GREAT BIG ROCKET  
AND EVERYTHING INSIDE IT IS STATE-OF-THE-ART.

THE ASTRONAUTS FLYING OFF IN THE SPACECRAFT  
FIRST SPEND LOTS OF TIME LEARNING – SCIENCE, MATH, EVEN RUSSIAN  
THEY LEARN ABOUT SPACE, THEY'RE GIVEN SPECIAL SPACE SUITS  
AND THEY GO OFF TO RESEARCH AND DISCOVER DISCOVERIES

SINCE OUTSIDE THEIR SPACECRAFT THINGS ARE KINDA DIFFERENT,  
THEY WEAR THEIR SPACE SUITS FOR ANYTHING THEY DO –  
THE SUITS PROTECT AGAINST THE HEAT AND THE COLD,  
THEY'VE GOT TO BE WORN IN THE SPACECRAFT GOING OUT AND COMING BACK.
